

- i. Please write "About Us", instead of "About Ambition Tours".
- ii. Please align the title "About Us" and the content under "About Us" at the left side (instead of centre). It is easier to read. The below pictures can stay the way they are.
- iii. I am guessing, the page in the above screenshot is "About Us" Page. So, can you please add one more tab in the blue Navigation bar titled "About Us"?

Because, now if we go to other pages of the Website, there is no way to get back to the "About Us" page.

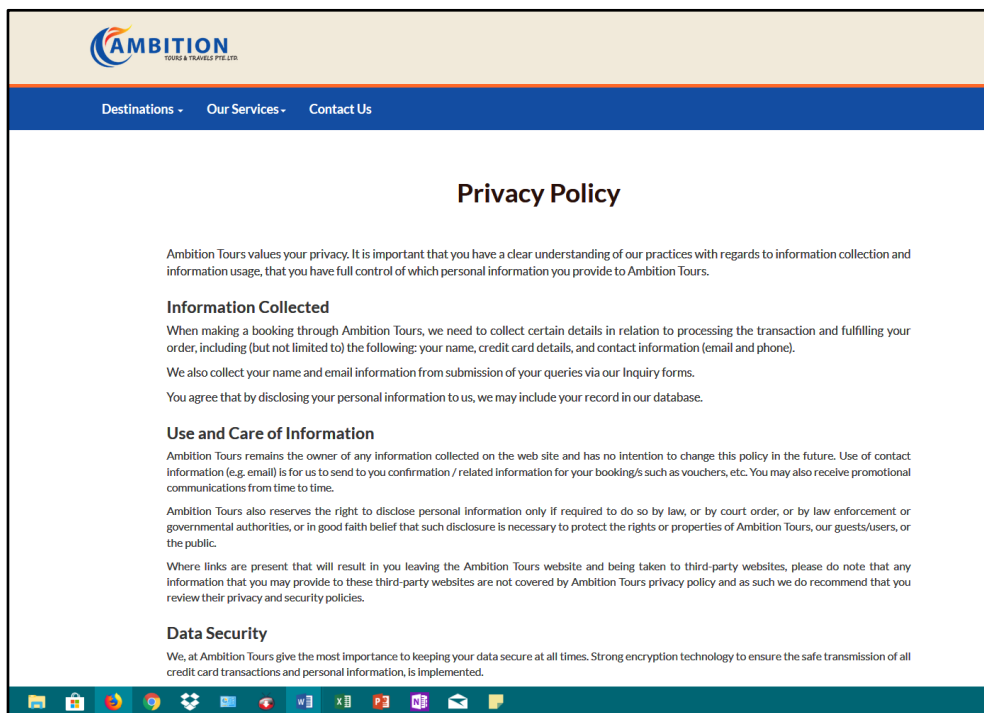

- iv. Also kindly arrange sequence of the 4 tabs in the Navigation Bar as follows:
    - 1. About Us
    - 2. Our Services
    - 3. Destinations
    - 4. Contact Us
-

## No.2

- Please add "s" with Voucher in the heading. It should be Travel Vouchers (not Travel Voucher).
- Please align the Title, content under the title "*Purchase travel vouchers here with just a .....upon your purchase confirmation.*", at the left side, instead of centre.
- How can I remove/add the social platforms?

## No. 3

Can I use the Privacy Policy the way it is now? Or, is it necessary to rephrase?

- Please clarify what does this Dashboard do? Are the emails or names or the Travel Dates supposed to link to anything?

- ii. If it is simply the way it is now, it does not really help in any effective way. Because there may be a lot of bookings, but we won't really get any helpful info only from a long list of names, email addresses, etc.
- iii. Please advise.

## No. 6

- i. The pictures I added i.e. Trick Eye Museum, Universal Studio; they appeared in a different size (smaller). I would like them to be bigger and all same size like the way it is at Sentosa Sea Aquarium, etc.
- ii. How can I re-shuffle the Attractions? Meaning, how can I bring Universal Studio at the very first place and put Trick Eye Museum at the very last, and so on and so forth?

---

## No. 8

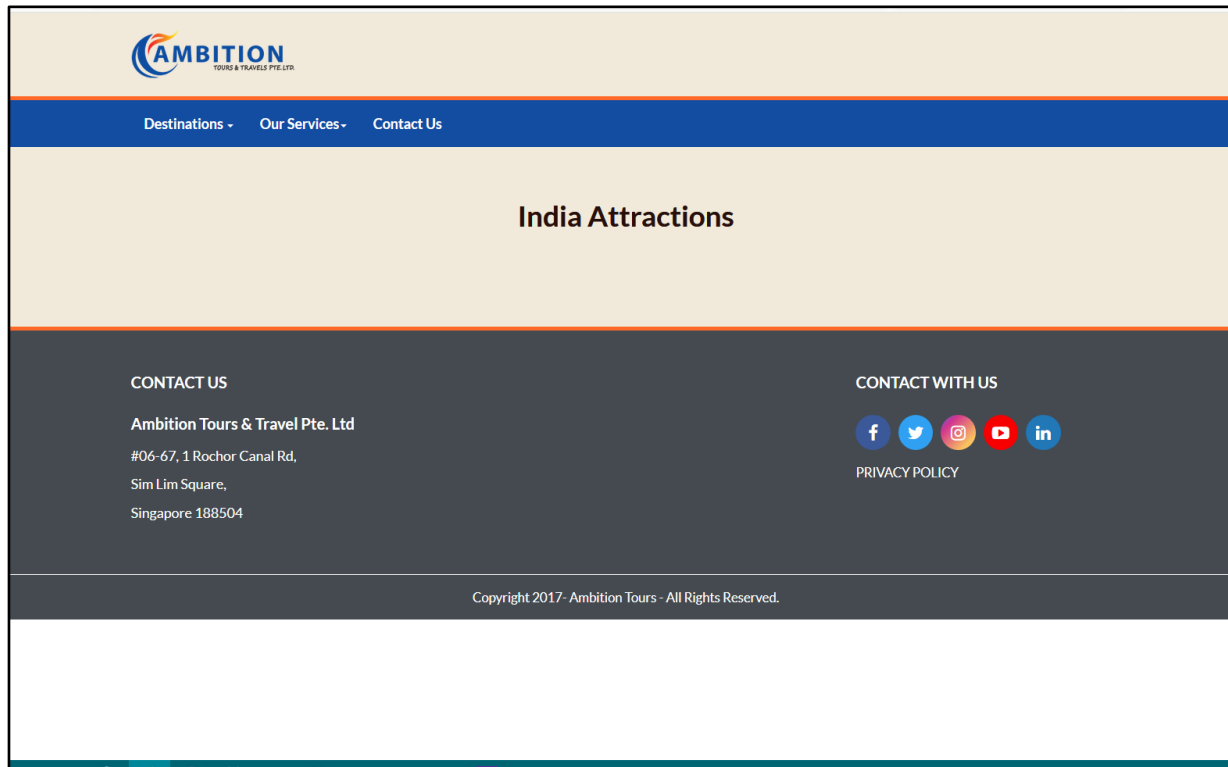

### 1. How to change pictures in the PACKAGE TOURS page?

I could change the pictures in the Attractions page (for each individual countries), but not in the PACKAGE TOURS page where one picture is representing one specific country.

## No. 9

Will you later link the PACKAGE TOURS page of different countries to the DESTINATIONS accordingly? Because at the moment, from DESTINATIONS tab, only Singapore Attractions can be seen. Other countries' pages appear as above (only a title).
